

NOTIFICATION OF CLOSURE AND RELOCATION OF OUR SITE AT WEST THURROCK.

The Isotank site at Jodrell Way closes on Friday 2nd September 2011 but the good news is that we are opening a new site only 5 minutes away; Monday September 5th will be the first operating day in the new location.

The last wash and the last lift at Jodrell Way will be offered on the afternoon of Friday 2nd September, and I am sure you will understand it would be impossible for us to undertake all lifts of tanks from store in the final few days. We need your help to progressively reduce the stock of tanks on site as soon as possible so we will have only a few essential lifts during the final week.

The address of the new site is:

**Isotank West Thurrock
Oliver Close,
Grays,
Thurrock,
RM20 3EE.**

When we first open at Oliver Close, we will offer bag-in-box fitment and related lifting; we regret that heating and cleaning services will not be available immediately.

However, we are building a new tank wash with a full range of ancillary services to re-establish our full product range as soon as possible.

Building a new tank wash is a significant commitment in the UK market and we shall keep you informed as this exciting development progresses to the day we can again offer cleaning and heating in West Thurrock.

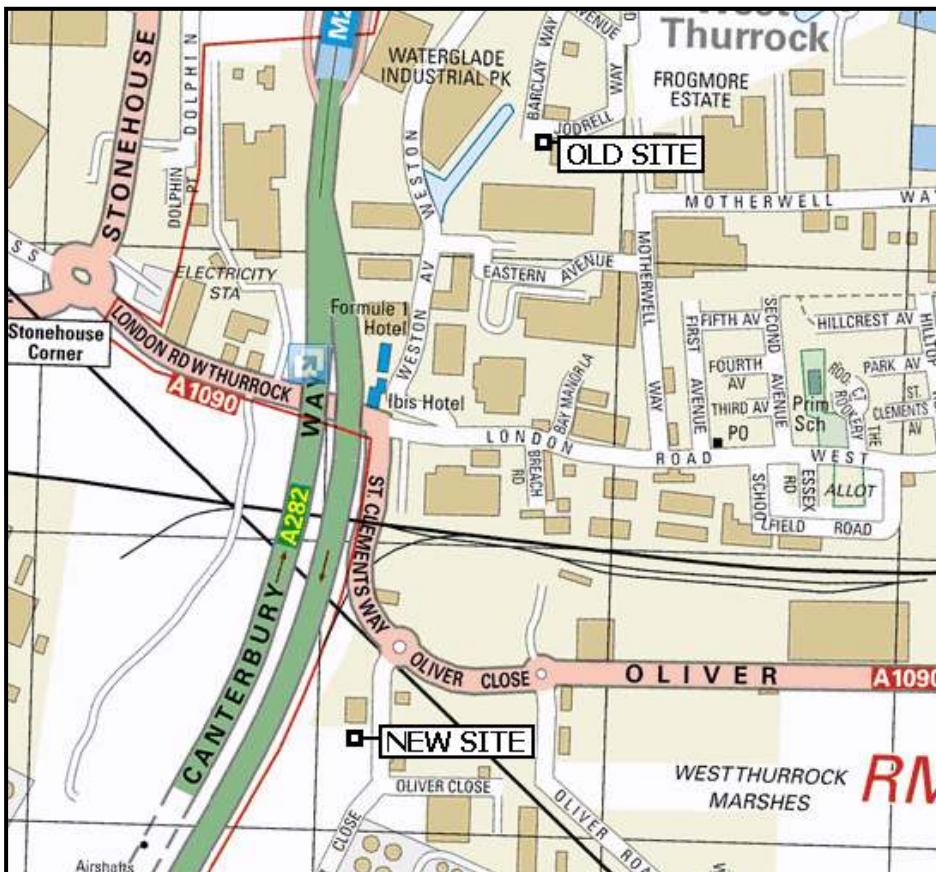

Information will be available on our website www.isotankgroup.co.uk.

Contact numbers and e-mail address for your regular contacts will be unchanged and we look forward to welcoming you at our new site.

Finally we thank you in advance for your understanding and patience while we make this move.

Best regards,

Isotank management and staff.
